Excell-erate Your Seed!

BioExcell™

BIO-ACTIVE *planter box treatment and seed lubricant*

Improves germination and emergence
Supports Nitrogen fixation and efficient nutrient cycling
Provides vigorous defense against early season stress
Enhances root and root hair development
Increased yield potential

A comprehensive proprietary blend of Rhizo-bacteria, Mycorrhizae and Trichoderma fungi.
Includes biostimulants Humic and Fulvic Acid with a blend of Micronutrients.
Inoculated organic listed non-asbestos 80/20 talc graphite seed lubricant.

- ☑ Bio-Active inoculated formula that delivers billions of living soil microbiology
- ☑ Easy to use packaging for seed box application simplicity
- ☑ Three years of field validation from independent agronomist replicated trials
- ☑ Real-world positive grower yield monitor data
- ☑ Low input cost that delivers a positive ROI
